

# Premium Parking Program at Rensselaer Rail Station

## ***Reserved and Guaranteed Parking***

***Your Key to Convenience***

### **What is it?**

A limited number of reserved and guaranteed parking spaces are available in the Rensselaer Rail Station Parking Garage. Each space is available at a cost of \$250 per month. Consumers pay for the space in advance and receive a lock to secure their parking space.

The parking space is reserved and secured using a simple device, which is attached to the floor of the garage in the middle of each reserved space. The device is a 24 inch high cylinder. When it is unlocked and down, cars can drive into the spot. When it's upright and locked, spaces are effectively blocked.

### **How do I get a space?**

The spaces are reserved at the payment island located at the entrance to the Rensselaer Rail Station. Pay the attendant with your credit card and you will be given the number of your parking space along with a lock and key (you may choose a combination lock if that is more convenient).

Drive into the garage, find your reserved space, lower the device and park with added peace of mind and convenience. When you leave, back your car out of the space, raise the device and lock it in the upright position until your next visit to the Rail Station – simple and easy; it takes about 30 seconds.

### **How much does the space cost?**

Each space is available at a cost of \$250 per month (tax included)– credit card payment only.

### **How long is the space reserved for?**

The \$250 fee covers 30 days. You can buy a maximum of 90 days at one time (\$750); that means you can reserve your parking space for up to 3 months – great convenience and peace of mind.

Renewals are easy and are available at the parking island at the entrance to the Rensselaer Rail Station parking facility.

### **Questions**

Visit the parking island and speak to your attendant or visit the CDTA web site at [www.cdta.org](http://www.cdta.org).
