During the year ended March 31, 2016 the total investment income was $187,688.

During the past year, our investment vehicles were “Money Market” accounts and Now Accounts in banks doing business in New York State, and managed Investment Account in connection with Restricted Funds as explained below. All temporary excess operating cash is deposited in “Money Market” or “Now” accounts, whichever is currently earning the highest interest rate, and is withdrawn as required for operating purposes. Cash balances in operating accounts are monitored on a daily basis with banks in order to maximize the time such funds are kept in the interest earning accounts.

CDTA also has five restricted cash funds which remained invested with Hugh Johnson Advisors. These restricted funds are as follows at 3/31/2016:

- Worker’s Compensation Self Insurance: $8,146,422
- Capital Projects & Local Match Reserve: $2,753,143
- Operating Reserve: $2,801,715
- Vehicle Replacement Reserve: $3,875,475
- Risk Management Reserve: $3,924,334

TOTAL: $21,501,089

In order to adhere to CDTA’s Investment Guidelines the securities purchased with the Reserve Funds were “Obligations of the United States Government or Agencies there of”. Further requirements were that all securities be of an “AAA” rating.

At 3/31/16 each Reserve account consisted primarily of U.S. Government Treasury Notes and agency obligations. The following table provides key information about each Restricted Fund Account at 3/31/16:

These accounts were always collateralized 100% or more, by the bank involved. The collateral was held in joint custody accounts in third party banks mutually agreeable to CDTA. The five fund accounts managed by Hugh Johnson Advisors were not collateralized due to the fact that the securities in both accounts are specific U.S. Treasury obligations backed by the U.S. Government.
